POWERS
ABSORBED the number = how much damage this armor blocks per hit INTENSITY the number = how hard for targets to resist (their FEAT difficulty)
MOVEMENT see Movement block above for areas/turn + mph

BODY ARMOR	INCREDIBLE (40) ABSORBED	Incredible protection vs. physical and energy attacks, she has Uncertainly resistance to toxins and Class1000 resistance to terrestrial diseases
LEAPING	MOVEMENT	Shift Z leaping abilities, allowing her to leap 4 areas.
MIND TRANSFERAL	REMARKABLE (30)	Remarkable rank ability to switch minds with anyone in 3 areas who makes eye-contact.
HYPER-RUNNING	GOOD (10)	Good land speed
REGENERATIVE FACTOR		She-Hulk heals faster than normal (but is incapable of regrowing limbs or organs) and should probably be considered to have Gd-10 Regeneration. As a side effect of her powers she is resistant to Diseases and Toxins as well.
ALTER EGO	INTENSITY	She-Hulk can change back and forth between her She-hulk form and her normal self as Jennifer Walters; Height: 5'10" & Weight: 150 lbs.

EQUIPMENT	
SHE-HULK'S FLYING CAR	This is a specially modified convertible pink cadilacc, originally it was a '59 Dodge Charger with interstellar capabilities, but that vehicle was trashed and a new one was built for her. While an industrious gamemaster or player could design such a vehicle for her, presented belowe are some basic stats for the most current model.
