INVULNERABILITY	ABSORBED	The Surfer can withstand great extremes of temperature caused by the build-up of friction within atmospheres or the intense heat and radiation of the surface of stars in the vacuum of space. The Surfer is immune to Fire, Heat, Cold, Radiation, Toxins, Disease and Aging at CL1000 rank. The Surfer does not age, though he is not technically immortal in a “godly” sense.
POWER CONVERSION		The Surfer has the power to channel cosmic radiation into his body and transform it into useful forms, including sustenance and energy for his other powers.
→ ABILITY BOOST	SHIFT-Z (500)	The Surfer can augment the strength of his cosmic energy powered body to a degree that rivals the Hulk’s formidable rage-enhanced strength. The Surfer can increase his Agility and Strength to Power rank for 1-10 hours a day. By focusing on one ability, he can raise it to Shift-Z for 1-10 rounds. Raising physical abilities in this way also increases his Health score accordingly. The Surfer can also raise his Body Armor to Shift-Y for 1-10 hours a day or a maximum of Shift-Z for 1-10 rounds a day in this manner.
→ PLASMA GENERATION	UNEARTHLY (100) DAMAGE EN	The Surfer can project extremely powerful cosmic energy blast of Unearthly Force or Energy. By channeling cosmic energy to his limit, he can boost this ability to Shift-Z for 1-10 rounds once per day.
→ SELF-REGENERATION WITH UNEARTHLY ABILITY.	RESTORED	
→ HEAL OTHERS WITH UNEARTHLY ABILITY. HE CANNOT RESTORE LOST ENDURANCE RANKS.		
→ DETECT ENERGY AND TYPE ANYWHERE ON A PLANET, WITH UNEARTHLY ABILITY.	DAMAGE TB	
→ ELEMENTAL CONVERSION, MOLECULAR CONVERSION, AND MECHANICAL CREATION	UNEARTHLY (100)	The Surfer can manipulate matter and can rearrange the molecules of matter to create other configurations with Unearthly ability. He cannot, however, create life or living matter from nothing.
→ SHRINKING	INTENSITY	The Surfer can use his cosmic energies to allow him to shrink with CL5000 rank ability, to an extent that allows him to enter the Microverse.
→ GIVEN THE NATURE AND SCOPE OF THE POWER COSMIC, THE SURFER MAY DEVELOP OTHER POWERS OVER TIME.		
BODY COATING	MONSTROUS (75)	His entire body is covered by a flexible silver metallic shell (The Galactic Glaze) that gives the Surfer Monstrous resistance to physical attacks and Unearthly resistance to energy attacks.
FLIGHT	SHIFT-Z (500) MOVEMENT	The Surfer can channel cosmic energy enabling him to fly even without his board up to CL3000 speeds in space and Shift-Z max in atmospheres. He rarely does so however being that he can fly effortlessly with his cosmic board.
LIFE DETECTION	UNEARTHLY (100) SENSE	He has the Unearthly ability to detect the presence of life energies within 500 light years.
ENERGY DETECTION	UNEARTHLY (100) SENSE	Surfer can detect any form of energy with Unearthly ability within 500 light years
TELEPATHY	GOOD (10) INTENSITY	He has Good telepathy. This is mostly used to communicate when normal conversation is impossible. It also allows him to rapidly learn a new language.
POSTCOGNITION	POOR (4)	The Surfer has the Poor ability to see events that occurred up to four weeks ago. He must be at the site of the event in order for this power to work.
ENHANCED SENSES	SENSE	The Surfers senses of hearing and sight are vastly superior to most beings. He has proven capable of clearly discerning human sized objects in detail a light year away. Hypersensitive Hearing and Telescopic Vision up to 1 light year away.
COSMIC AWARENESS	UNEARTHLY (100)	The Surfer has certain cosmic energy enhanced perceptions that surround him. Thus he can tune in to the universe and perceive the presence of powerful cosmic entities with Unearthly rank ability.

LIFE SUPPORT		RESTORED	The Surfer does not require food, water, or air since he absorbs life-maintaining cosmic energy directly through his skin at CL1000 rank. Although his body does not require sleep, his mind still does in order to give it an opportunity to dream. The Surfer's mind only requires sleep about once ever earth month in order to maintain a healthy mental state.
KARMIC TAP			This power allows the Surfer to tap into his reservoir of willpower (Karma) and increase his Power Conversion by 1 point for every 2 Karma spent. There is no known limit on his karmic tap abilities. This is limited to the same round in which he spent/converted his karma. Rolling an Red Psyche FEAT roll will permit another round of benefit from the Karma spent. This power is considered a free action, may be done in addition to other actions in the round.
LIMITATIONS			
		—	Due to the Surfer's high personal moral standard, all Karma losses are tripled.
