SHIELD (UNIQUE WEAPON)

CLASS 1000 (1000)

Captain America carries a circular red, white, and blue shield made of a special mixture of Adamantium and Vibranium. The shield is a Class 1000 material that cannot be damaged by any force except psionics. It absorbs up to 80 points of damage each round. While Cap uses the shield to protect himself, he cannot attack. Even when he uses his shield, Cap is subject to Slams and Stuns. Cap can throw his shield with Monstrous Agility and cause Remarkable damage (30 points) to whatever it hits.
